Welcome to Raising Bilinguals.

Mother of a Deaf child

Say it with me: You are the leader and expert of your child's journey.

Hey there, I'm Clare. I've spent over 15 years as a Teacher of the Deaf, an Auslan user and an advocate for deaf and hard of hearing kids. **Then 5 years ago, I unexpectedly gave birth to my own Deaf child - and everything changed.**

I know what it's like to sit in the audiology clinics, the school meetings and the therapist offices feeling like your child is being viewed as a list of deficits to be managed. I know the weight of trying to piece together a bilingual path when the "system" keeps telling you to choose one or the other.

But here's the thing I need you to know:

You aren't failing. You aren't behind. You aren't doing it wrong.

You are simply navigating a very layered + complex path, without a manual. **That's a lot!**

This Roadmap is designed to help you stop reacting to the noise and start leading with intention. I've curated four pillars to give you clarity and help you take back control of the journey.

So let's take a breath and get you back on track.

Let's get you back on track in 4 simple steps!

1 Find your 'true north'

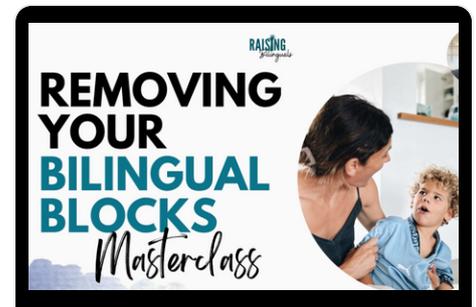

Gain clarity around your 'true north' vision and end-game for your deaf or hard of hearing child using this Day 1 sneak peak from my client-favourite '**7 Day True North' Challenge!**

Focus in on language

A **rich and robust vocabulary** is hands down one of the most critical things we can teach and foster in our kids. Here's a summary from my vocab guide series that outlines the **core focus of each developmental stage for our deaf and hard of hearing kids** - helping you shift your lens as your child grows.
